Date: 08 November 2025

Winter Training on Space Science and Technology 2025 (A Skill Training & Internship Program)

IMPORTANT UPDATE

In view of the representations received from students and faculty members of various universities and academic institutions, and considering the ongoing examination schedules during the month of December, the Organising Committee has approved the following revisions to the Winter Training Program:

1. Extension of Registration Deadline

The last date for registration has been extended from **10 November 2025** to **30 November 2025**. This extension has been granted to facilitate wider participation and to accommodate requests received from multiple stakeholders.

2. Rescheduling of Program Commencement

The Winter Training Program shall now commence from **January 2026** instead of December 2025. This decision has been taken in the interest of academic convenience and to ensure that students and faculty members are able to participate without conflict with their institutional examination schedules.

These modifications are aimed at enhancing accessibility, reducing academic overlap, and ensuring optimal engagement in the training program.

All concerned are requested to take note of the above and disseminate the information through appropriate channels.
